OPEN **MAINFRAME** PROJECT

Modernization WORKING GROUP

The Modernization Working Group will create a common definition and framework around modernization in the mainframe space; produce educational material and promote all messages and definitions wider landscape for better alignment.

This webinar with Misty Decker (working group chair), John Mertic (OMP executive director) and Brent Ellis (Senior Analyst at Forrester) explains the history behind this working group and why it's so important. [Move from Modernization Confusion to Modernization Clarity \(brighttalk.com\)](#)
